

Friends,

Today, 1-18-07, we are going to do the following for class:

1. First, we are going to meet in the chat named "1-18 Startup Chat"
2. Then we are going to talk about the reading via a forum, labeled "[Reich and Gig Forum for 1-18-07](#)", and from there we will move into, via groups that Chris will clue you into, into one of three chat's, which are labeled as follows:
 - a. [Group One Chat \(1-18-07\)](#)
 - b. [Chat Group Two \(1/18/07\)](#)
 - c. [Chat Group Three \(1/18/07\)](#)
3. After this, we will be doing peer review via the forum labeled "[Peer Review for First Draft of Research Proposal](#)". **Be sure to find your group number again and work with the same people you just worked with.**
4. Time allowing, we will be working with the wiki a bit, so that we might use it for some of the work that we will be doing later in the quarter.

I hope you all enjoy today, and be sure to ask as many questions as you need.

Take care,

Chris Dean
