Work on Images/Examples from Papers

Step One
Find an image or example that you can build upon from the list I gave you.

Step Two
Switch, and then get feedback by getting answers to these two questions:
- What specific language makes the image or example work, or what could be added to make the image or example work?
- What are some things that the author might do to make their example or image work even better?

Step Three
Rewrite to create even an even more vivid example
