Brainstorming for Paper Three (20 min)

Step One: After reading over the prompt and the possible topics, what is a topic that you can write about and what might you say?

Step Two: Read through and underline your key point—as you see it now.

Step Three: Go to the library homepage, click on the “research” link, and then on the “online articles and databases tab.” Then, enter in search terms, as Chris will demonstrate, about your topic for now. If you find anything interesting, then email it to yourself.
